The image is a high-contrast, black and white photograph. It depicts a dense, textured surface, possibly a wall or a large piece of fabric, with a dark, irregular border on the right side. The texture is grainy and noisy, with many small, dark specks and larger, lighter patches. The overall appearance is that of a heavily degraded or high-contrast scan of a physical document or photograph.

Dr. J. COLLIS BROWNE (late Army Medical Staff) DISCOVERED
VERIFIED REMEDY, to which he has added the word CHLORODYNE.
Dr. Browne is the SOLE INVENTOR, and as the composition of Chlorodyne
cannot possibly be discovered by Analysis for its organic nature, and its
composition, and since the formula has never been published, it is evident that
any statement to the effect that a compound is identical with Dr.
Browne's Chlorodyne must be false.
This caution is necessary, as many persons
deceive purchasers by false representations.Dr. J. COLLIS BROWNE'S CHLORODYNE.
